

Reorganization of Academic Affairs

Dr. Malcolm Wilson, interim vice president for academic affairs, has announced the following working titles in Academic Affairs:

★Dr. Glenn Irvin, associate vice president for academic affairs and university dean. Irvin will assist the vice president in the operation of the division and act for the vice president in his absence. In addition, he will be responsible for curriculum—both graduate and undergraduate; administrative duties for General Education and Breadth; campus coordination of accreditation activities and WASC campus liaison officer; and academic planning.

★Donald Coats, associate vice president for educational services. Coats will be responsible for articulation, class scheduling, graduation, deviations, and petitions.

★Frank Lebens, associate vice president for academic resources. Lebens will coordinate the administrative activities of the vice president's office, and be responsible for the division's financial operations and personnel resources.

★Dr. Robert Lucas, associate vice president for graduate studies, research and faculty development. Lucas will be responsible for graduate program development and review, graduate policy development, graduate student services, and graduate fellowships. In addition, his faculty development responsibilities will include internal and Chancellor's Office grants program administration, faculty development policy and advocacy, faculty fellowships, and overseeing of campus centers and institutes. International programs will be moved to this office from the School of Liberal Arts.

★Dr. Walter Mark, interim director of institutional studies. Mark's knowledge of curriculum, academic programs, admissions, and records as well as CAR registration will be used to provide up-to-date and accurate data.

★Dr. Roger Swanson, associate vice president for enrollment support services. Swanson will continue to be responsible for Relations with Schools, Admissions, Records, Evaluations, and Student Data Systems.

All six will report directly to the vice president.

National groups elect students

Cal Poly students were elected to national office during the recent annual meetings of two college and university organizations related to the American Society of Agricultural Engineers.

Katherine S. Peterson, a junior agricultural engineering major, was elected president of the National Council of Student Branches of ASAE, which coordinates the activities of the 60 campus groups of the society across the nation.

Randal S. Walters, a junior majoring in mechanized agriculture, was elected first vice president of the National Council of Student Mechanization Clubs, the coordinating body for the 15 student mechanization clubs.

Both Peterson and Walters will serve through the next annual meeting of their organizations in late June of next year.

Walch to serve as interim VP

President Baker has announced that Dr. David Walch will serve as interim vice president for information systems. He will remain in that position until a permanent appointment is made. The recruitment process for a vice president is now in progress. The position reports directly to the president.

H.S. journalists in workshop

Thirty-one top high school journalism students from throughout Central and Southern California are participating in the 35th annual California Scholastic Press Association Workshop at the university.

The workshop, which will continue through Aug. 8, is co-sponsored and hosted by the Journalism and Public Affairs Departments.

It gives high school seniors and recent graduates practical instruction in a variety of media fields, including print journalism, radio and television journalism, public relations, advertising, and photography.

Workshop faculty are media and communications professionals who volunteer their services. Many are graduates of the CSPA/Cal Poly Workshop, which was founded and operated for many years by Los Angeles-area journalist Ralph Alexander and his wife, Millie. Both Alexanders died in 1981, but CSPA graduates and Cal Poly joined to carry on the program.

During the intensive two-week workshop, students are required to produce a television news segment, shoot and develop still photographs, and complete a variety of writing assignments in deadline situations.

Dairy Science students honored

Daryl Nunes, a recent Dairy Science graduate, has been selected to receive the Dairy Shrine's 1986 Student Recognition Award for the nation's top dairy science student. He is currently interning with the California Milk Advisory Board.

Two other Dairy Science students have been chosen to help lead the Student Affiliates Division of the American Dairy Science Association during 1986-87. Sean Tollenaar will be the organization's first vice president, and Julie Rasmussen will be the officer-at-large.

Hours extended

Last spring the ASI Senate passed a resolution calling for an extension of hours for both the Records and Evaluations Offices. Starting with the Fall Quarter, both offices will be accessible to students from 8 am to 5 pm.

Here's the beef

The Cal Poly meats enterprise project has frozen locker beef for sale. The price (hanging weight) is \$1.20/lb. Call Matt, ext. 2114, daily from 10-11 am or 3-5 pm.

**PAYDAY
AUGUST 29**

Who, What, Where, When

Donald Lazere, English, was the keynote speaker at a conference on interdisciplinary studies and critical thinking sponsored by the Interdisciplinary General Education Program at Cal Poly Pomona in June.

Lloyd H. Lamouria, Ag Engineering, will be recognized by the American Society of Agricultural Engineers for his part in the development of the nation's first agricultural tractor roll-over protection device. His name will be one of three on a plaque to be installed at UC Davis.

Stan Ullerich, Ag Management, has received a travel grant from the Farm Foundation so he can participate

in a pre-conference teaching workshop and the American Agricultural Economics Association annual meeting in Reno.

Russell H. Brown, Student Affairs, was a teacher for the National Association of Student Personnel Administrators, Inc. Region VI Academy for new Professionals in Claremont. He also serves on the organization's advisory committee.

Leslie S. Ferreira, Dairy Science, has been honored as the outstanding student affiliate chapter advisor at the annual meeting of the American Dairy Science Association's Student Affiliate Division.

W. S. Mott, Graphic Communication, published an article, "Manufacturers as Educators," in the July issue of *Graphic Arts* monthly.

Armando Pezo-Silva, Student Academic Services, participated in the two-week Harvard Management Development Program at Harvard University.

Robert L. Gordon, Ornamental Horticulture, has been awarded the Distinguished Service award by the American Institute of Floral Designers. The award, which has been granted only six times in the last 25 years, makes Gordon a fellow of the institute. It is the highest award in floral design.

Barry Whelchel, Foundation Personnel, recently served as a member of a panel that made a presentation to the California Apprenticeship Council: "To Test or Not to Test." He discussed an article that he had published in the *Personnel Journal*, "Use Performance Tests to Select Apprentices."

Cal Poly Report schedule

The next issue of *Cal Poly Report* will be August 21. This will be the last issue of Summer Quarter. (The deadline is a week prior to the publication date.) The first issue of Fall Quarter will be Monday, Sept. 15.
